DESCRIPTION

Property 10736 – Courchevel – French Alps

5 Bedrooms – Indoor Pool - SPA

Our chalet is located in the Three Valleys, the world's largest ski resort with 600 kilometres of slopes. 85% of the slopes are more than 1,800 metres above the sea level, offering a great snow cover from early December until late April. The city of Courchevel needs no introduction. Our chalet is located in Courchevel 1850, the highest and most prestigious part of the resort.

The chalet is owned by a Russian tech entrepreneur. To give the chalet a feel of Russian luxury, designers focused on the details: there's real fur for the drapery, traditional Russian patterns for the chimney, and gold leaf finish for chandeliers and floor lamps. For the interior design, our architects used the traditional chalet style decor, including natural upholstery and wooden floors, walls, furniture, and bars for the ceiling.

If you feel like spending time out of the chalet just let us know. In addition to stores and restaurants in Courchevel, you can enjoy the fun of a climbing wall and an ice rink at the Forum shopping mall. For passionate shoppers, Courchevel 1850 boasts the best high-street boutiques.

The chalet can only be booked as a whole house for vacations with family or friends. Our house provides comfortable accommodation for ten guests. With three floors, it has five bedrooms, each with its own bathroom, wardrobe, and balcony.

The largest 50 sq. m. bedroom boasts two wardrobes and a working space. To keep a true chalet atmosphere, our designers used natural fabrics: linen and jacquard for the curtains; silk, jacquard satin, and batiste for the bedrooms; leather and canvas for the furniture.

The chalet has its own chef, who will treat you to some classical Savoie Alps dishes or fix you some of your favourites. If you want to dine out, we are here to book you a table in a restaurant or help you select bars and clubs for a night out.

At our chalet, you will be able to fully relax and enjoy each and every moment of your vacation.

After breakfast, ski lovers are out on the slopes. A great place in terms of people and atmosphere, Courchevel has one more major attraction: it offers a variety of pistes located a stone's throw away from your accommodation.

If you do not ski, but would like to learn to, our manager will be happy to arrange for all the necessary equipment and an instructor who will teach you skiing basics in just a couple of lessons.

We invite our guests to enjoy spa and fitness lounges on the second underground floor. After a workout at the gym, just relax in our sauna or Turkish bath.

Exhausted after hours of skiing in Les Trois Vallées, your friends will join you. On leaving the steam room, rub your skin with finely crushed ice from the nearby ice fountain and you will feel refreshed and invigorated.

A 1.4 metre deep swimming pool is right there to calm your body after the freezing cold of the ice. Finish off your spa day with a massage in the spa lounge that will help relieve tight and sore muscles after a hard workout or skiing session if you were cruising the slopes.

We will meet you at the airports of Geneva, Lyon, Grenoble, Chambéry or Courchevel. The trip to the chalet will take from half an hour to two hours depending on the airport of your arrival. A private driver will be at your disposal twelve hours a day throughout the entire stay.
